

Upgrading to the TEC DG-1000

Whether you are looking to add seamless automated testing or simply want the most advanced gauge for manual testing consider upgrading to a TEC DG-1000. The DG-1000 gauge platform is regularly updated with free software updates focused on ***Making it Easier to get it Right™***. Recent advancements include Bluetooth & built-in Tubing Assistant App.

TEC DG-700

TEC DG-1000 & AutoTest App

Using a TEC DG-1000 Gauge with your TEC Minneapolis Equipment Ensures:

- You are using gauges made exclusively to provide optimal performance with Minneapolis Brand Products
- TEC support for all your equipment and ability to help when you have questions while testing on-site
- Seamless integration to existing controllers with no hidden costs to automate your test & data collection
- Bluetooth simplifies gauge connection and leaves your mobile device Wi-Fi available for other apps
- Built-in Tubing Assistant App to simplify test setup for any situation, with other free apps added over time
- Simplified data management using TEC AutoTest, TECTITE, and TECLOG to store data to any cloud - or integrate with other software.

To Receive \$400 credit * plus a protective boot, please follow these steps:

- Completely fill out the second page of this form including all contact information, serial numbers of the DG-700 gauges being traded-in, and payment information for the transaction
- Package and send DG-700 gauges being traded-in to The Energy Conservatory - Attn: DG-1000 Upgrade
- Include a copy of the completed form in the package containing the DG-700 gauges
- Please do not include gauges being calibrated in the same package containing trade-in gauges.

* Note: Only one DG-700 credit can be applied per purchase of a DG-1000 gauge. For example, if you trade-in 2 DG-700 gauges, you will receive \$400 off list price on each of two new DG-1000 gauges, but not \$800 off list on a single DG-1000 purchase. This trade-in upgrade promotion cannot be combined with other offers or discounts.
